### **Robbins and Cotran Atlas of Pathology**

*More than 1.200 full-colour illustrations richly depict all of the major conditions that are most commonly covered in pathology courses and in exams. Its consistent approach explores each condition beginning with a brief summary of its principal clinical features, laboratory findings and relevant pathology, followed by high-quality photographs illustrating the normal gross and microscopic appearance of the tissues in that body area as well as the main pathological variants.*

**June 2009**, 580 pages, 1.200 ill

**ISBN 9781416049296, 990 Kč**

### **Robbins and Cotran Pathology Flashcards**

*Taken from the Robbins text and Klatt's own extensive collection, these 350 brilliantly illustrated flash cards present gross, photomicrographic, and radiologic images that allow you to test yourself on key pathologic information, facts, and functions. Designed to help you master what you need to know, both sides of each card present a clinical vignette (700 in all), an image or diagram, two to five questions, and an explanation to the questions on the opposite side.*

**July 2009**, 350 cards, 1.200 ill
